

# Lugazi Ladies

Meet Harriet, a Lugazi Lady.

Harriet Ocheng is 43 years old. She learned that she was HIV positive about three years ago.

Her family sent her away and until she came to Lugazi, she was alone in her struggle.

Harriet's skin is rough due to her medication.

Because of this and the fact that she does not hide her status, she has difficulty finding work.

The Lugazi Ladies accept women like Harriet.

Now she is able to produce necklaces for an income, earning her way rather than relying on the sympathy of others.

She is able to be a part of a community.

**Thank you for supporting the Lugazi Ladies Necklaces Project.**
